

How to Import Visio Drawing as Stencil?

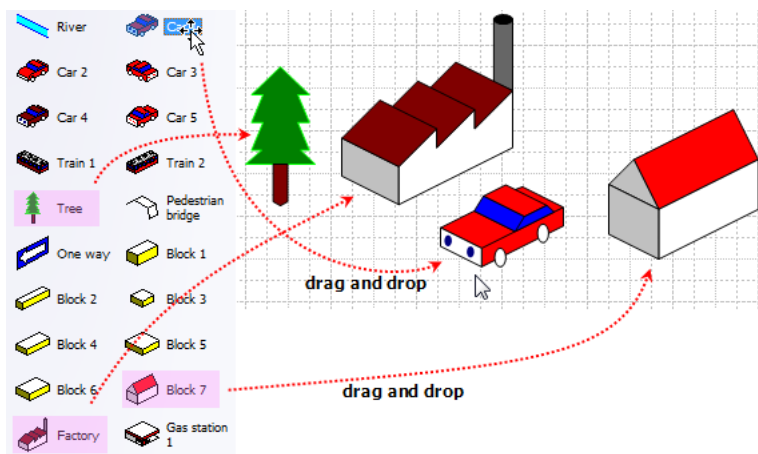

Written Date : August 16, 2010

Creating a Visio Drawing

1. In **Microsoft Visio**, select a category and then double-click your target template.

2. Drag *Car 1*, *Tree*, *Block 7*, and *Factory* from the toolbar and drop them onto the diagram pane.

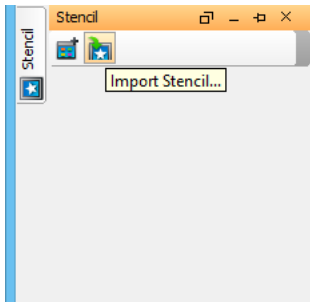

3. Finally, save the drawing as a file and enter the file name as *visio-drawing.vdx*.

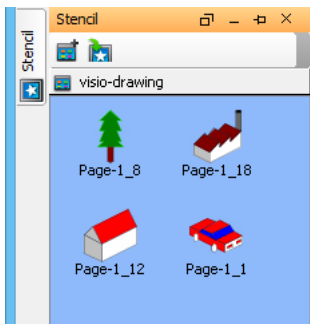

Importing a Visio Drawing

1. In Visual Paradigm, open the **Stencil** pane by selecting **View > Panes > Stencil** from the toolbar.

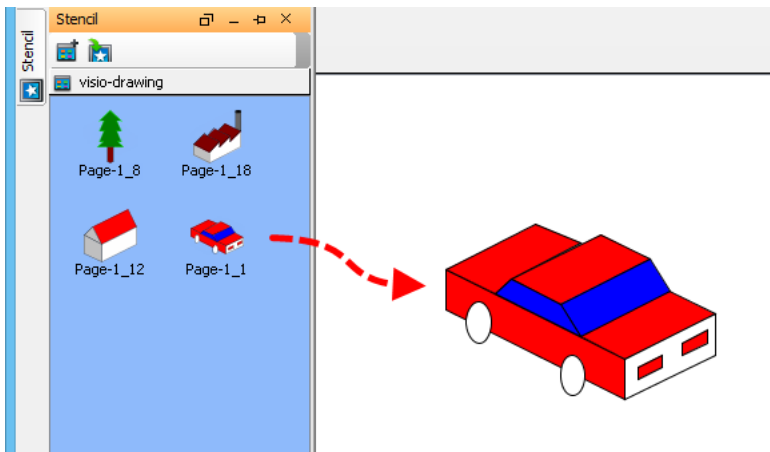

2. Click **Import Stencil...**

3. Select the location where you've stored *visio-drawing.vdx* previously in the **Import** dialog box.
4. As a result, the Visio drawings are shown on the **Stencil** pane.

5. Open a diagram and drag the car onto the diagram.
